

L.B. WHITE CONSTRUCTION HEATERS

**FOR SALE
OR RENT**

CONVECTION HEATERS

Easy-to-use, highly efficient heat that does not require electricity.

- 100,000–250,000 BTU
- LP and natural gas fuels
- Ideal for new construction, drying plaster, or keeping areas warm overnight

DUCTABLE DIRECT-FIRED HEATERS

Designed for applications where heat needs specific direction.

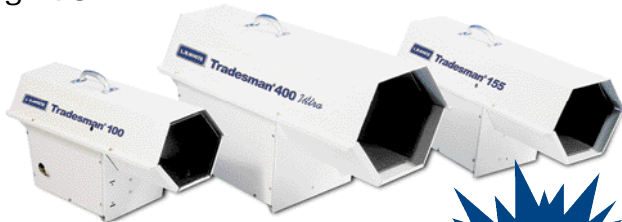

- 100,000–350,000 BTU
- LP and natural gas fuels
- Great for small work spaces and where low noise is important

PORTABLE FORCED AIR HEATERS

Engineered to deliver high heat output and move large volumes of air.

- 100,000–400,000 BTU
- LP and natural gas fuels • Electronic ignition

PORTABLE HEATERS

Instant, efficient heat for applications when gas is not convenient.

- 70,000–600,000 BTU
- Fuel oil • Highly portable

L.B. WHITE TORCHES

Offer durable steel construction along with a choice of heat outputs, handle lengths and fuel types.
